Why is it important to get started now?

Be good to yourself.

We want to help you plan the retirement you've envisioned. Because you deserve to feel good about your future and confident in your plan to get there. The first step? Enroll in your retirement savings plan.

How much retirement income is enough?

Although different for everyone, you'll likely need to replace at least 70% of your current income annually in retirement. After you enroll, you determine how much income you might need by using **myOrangeMoney**[®], an interactive online experience, that will show you how your current retirement assets may translate into future potential monthly income in retirement so you know when you can retire.

The choices you make about your contributions and investments are up to you. And you can easily make changes anytime online, on the phone, or with the Voya Retire mobile app. Remember, you are always in control.

Reasons to save today

- 1 Save automatically**
Your contributions are automatically deducted from your paycheck, so it's simple to set a little aside each pay period.
- 2 Help lower your taxable income**
Every dollar you contribute before taxes reduces your taxable income, which means you may pay less in income taxes today.
- 3 Invest your way**
Would you prefer to make investment elections yourself or would you appreciate having some guidance? How much investment risk are you willing to tolerate? No matter what you decide, we offer investment solutions designed to fit your style.
- 4 Remember, your money is all yours**
What you contribute and any related earnings are yours to take with you, even if you change jobs.
- 5 Put time on your side**
Investing over a longer period of time in a tax-favored account allows you to take advantage of compounding, meaning any earnings on contributions go back into your account without being taxed and can generate its own earnings.

Remember, it's your retirement.
Be generous.

401(k) Plan

Introduction

This section describes highlights of your employer's retirement plan. It represents a general overview of the information printed in your employer's Summary Plan Description (SPD). Your retirement program is more fully described in the formal provisions of your employer's plan document. If there is a conflict between these plan highlights and your SPD, the language provided in the plan document will govern.

Eligibility Requirements

You are eligible to participate in the plan when you are 18 years of age and have 1 year of service.

Enrollment Dates

Once you have met the eligibility requirements, you can join the plan immediately.

Employee Contributions

You may contribute 0 - 100% of your annual pay, not to exceed \$22,500 annually. Annual limitations are set by the IRS and are subject to change. The tax laws may also let you contribute an additional amount over the regular annual limit if you are at least 50 years old. Check with your benefits manager to see if you can take advantage of the increased opportunity to 'catch up' and contribute even more to your employer's plan. If your adjusted gross income does not exceed certain limits, you may be eligible for a tax credit.

Roth Contributions

Your plan permits Roth after-tax employee contributions. You may contribute a minimum of 1% and your total employee contributions (Roth after-tax and Traditional pre-tax deferrals combined) may not exceed \$22,500 annually (\$30,000 if you are at least age 50 and your plan has a catch-up feature). Annual limitations are set by the IRS and are subject to change.

Employer Contributions

Profit Sharing

Your employer has established a Profit Sharing plan. A Profit Sharing plan is a tax-qualified retirement plan in which your employer makes contributions on your behalf. The amount of the contribution is determined by an allocation formula that is generally based on participant earnings, while annual contributions are generally based on the company's profits. Contributions may be modified during times of business hardship.

Employer Safe Harbor

Your employer has elected to match 100% of the first 3%, and 50% of the next 2% of pay that you contribute. Safe Harbor contributions are 100% vested.

Vesting

You will always be 100% vested in the portion of your account attributable to your Employee contributions. You are also 100% vested upon your death, normal retirement, or disability. Your employer contributions are subject to the following vesting schedule:

Profit Sharing Contributions

You have an immediate non-forfeitable right to your employer contributions made to your account.

Rollovers

Money from other qualified plans is accepted. Rollover contributions are allowed prior to meeting the eligibility requirements of the plan.

Contribution Change Frequency

You may stop contributions at any time. Once you have stopped, you may resume contributions at any time. You may also increase or decrease contributions at any time.

Investment Transfers

Using Voya's automated telephone or Internet service, you have the ability to review your accounts and transfer funds from one investment option to another, 24-hours a day.

Hardship Withdrawals

Hardship withdrawal may be taken in case of extreme hardship as defined by the IRS when no other sources are available.

In-Service Withdrawals

In-service withdrawals are permitted by your plan. If your Plan allows for distributions prior to age 59 1/2, these distributions will be subject to an early distribution penalty of 10% additional tax unless certain exceptions apply. This tax applies to the amount received that you must include in income. Generally, there are restrictions on what dollars are available for in-service distribution. See your Summary Plan Description for more detail.

Distribution & Withdrawals

Funds are available at retirement, death, disability, or termination of service.

Participant Account Statements

Your investment statements are provided quarterly.

Now that you've envisioned your future retirement take the necessary steps today.

Your retirement plan investments are long-term investments designed for retirement purposes. If withdrawals are taken prior to age 59½, an IRS 10% premature distribution penalty tax may apply. Withdrawals will be taxed as ordinary income in the year the money is distributed. Account values fluctuate with market conditions, and when surrendered, the principal may be worth more or less than its original amount invested.
